10th Grade Honors Summer Reading Assignment

The 10th Grade Honors Summer Reading Assignment is designed to prepare you for the discussion, reading expectations, and critical thinking needed to be successful in the course. Your assignment is to read *The Color of Water* by James McBride and complete the reaction journal assignment.

Each student must create a reaction journal as they read *The Color of Water*. Below, the novel is broken up into three sections based on chapters. After each section, write a three paragraph response to the reading. Your responses can discuss an idea from the reading that you found interesting, a point that the author made that you'd like to debate, or a detail with which you can relate. I am looking for deep, insightful thinking in this response, not merely a summary of the plot, and remember that this is the proof of your reading!. Reaction journals must be typed using MLA format and double spaced. You must join the Honors Summer Reading Google Classroom in order to submit your work periodically over the summer. Points will be lost for late submissions. The class code to join is: **1s31q9i**.
