Dear Parent/Guardian,

Research shows that high-impact one-on-one tutoring is one of the most effective academic interventions available. Studies have found that students who participate in consistent, individualized tutoring can make the equivalent of several months of additional academic growth compared to their peers. We are pleased to offer eligible students the opportunity to participate in a **free** virtual summer tutoring program. This program is designed to provide additional academic support and help students strengthen their skills in a personalized one-to-one learning environment.

Students who participate will receive:

- Individualized virtual tutoring sessions
- Three 30-minute sessions per week
- Seven weeks of instruction throughout the summer
- Flexible scheduling options that work with your family's summer plans

Because this program is funded through a grant, there is no cost to families. To ensure students receive the full benefit of the program, participants must commit to completing the entire seven-week tutoring session.

Tutoring schedules will be arranged directly with families, providing flexibility in selecting days and times that best meet your needs. Please use the link below to indicate interest in the program as well as availability.

<https://forms.gle/u1jt18xFSkSJa6q88>

Space may be limited, and enrollment will be based on eligibility and program availability. We encourage you to take advantage of this valuable opportunity to support your child's academic success.

Sincerely,

Christine Teeney

Dr. Christine Teeney, Director of Curriculum and Instruction
Lower Cape May Regional School District
