Dear Parent:

Do you have or know of a child who may have physical, mental, or emotional problems? If so, CHILD FIND can help.

CHILD FIND is a community-wide effort to find and help children who are handicapped and in need of special educational programs or services.

In many cases, a special program can correct the child's problem if it is noticed early enough. Sometimes, however, parents do not seek help for a child because (1) they do not know what services they can get for the child; or (2) they do not realize the child has a problem.

Professional guidance and free special educational programs are available to meet the needs of children with special problems.

If you know of a child who may have a problem, contact us. Call the Lower Cape May Regional School District at 884-3475, extension 225, from 8:00 A.M. to 4:00 P.M., Monday through Friday, or write to Assistant Superintendent for Support Services, Lower Cape May Regional School District, 687 Route 9, Cape May, NJ 08204.

If we can find these children, we can help them. Thank you.

Respectfully yours,

Joell P. Worster
Supervisor of Special Education and Support Services
